

LINKING CONSULT ORDERS TO NOTES

To meet the AY2022-2023 Consult measure, consultants must ensure their H&P consult note or initial brief actionable note are linked to the consult order placed by the primary team.

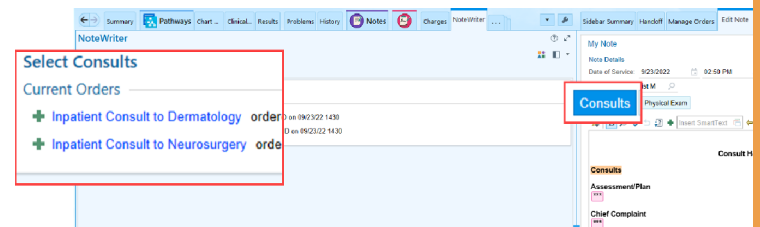

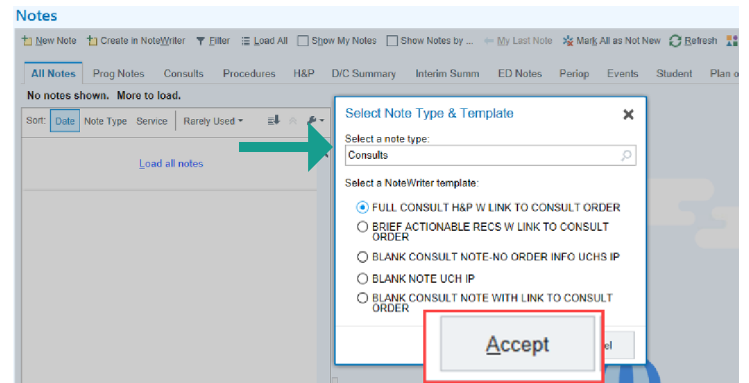

There are 2 main ways to do this in EPIC:

1

Open the Notes tab and click "Create" in Notewriter. Select the CONSULT note type.

Make sure to select a note that says "link to consult order"

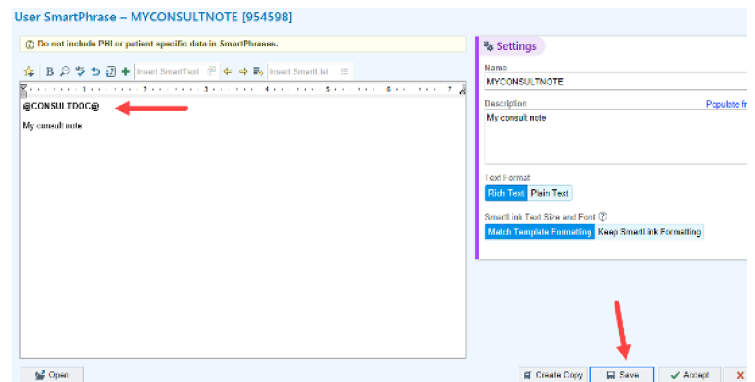

Once in the note, select the order on the left side to add it to your note. It can also appear in a box at the top of the note

2

If using your own template, you can also add the @consultdoc@ Smartphrase to your premade note template

You can then right click on the smartphrase to select the order on the left side

Using either method, your note should look like this before the consult order is selected:
